

Church Security Level #1

Please read Carefully and give us a call if you have any questions

Tactical Kingdom Defense Instructors: Prescott & Ruth Wagner

Firearms owners have a moral and ethical responsibility to understand their skills.

This course is focused on the understanding of having to use your defense pistol for a church defense situation and each student will be instructed and guided according to their physical abilities and skill levels. You have made the choice to protect your brothers and sisters in your house of worship, this decision morally and ethically requires us to become a better shooter and also come to a greater understanding of our abilities with a defensive firearm.

Church Security Level #1 Course description:

Safe gun handling skills
Grip, stance, platform
Trigger press
Natural point of aim
